- **Sun:** Much stronger than in Georgia – SPF 50 sunscreen, hats, and sunglasses every day, even when it's cool.
- **Afternoon storms:** Expected almost every day in July in the mountains – trails should start early and finish by noon. Do not be above the tree line when there is lightning.
- **Cold nights:** 7–11°C at night even in July. A warm layer for everyone in the daypack – always.
- **Key gear:** Closed shoes (dunes), water shoes (Zapata, rafting, Medano), swimsuits, quick-drying clothes, headlamps for stargazing night.
